

# FORMULA FOR SUCCESS PROGRAM

MAXIMUM PRODUCTIVITY @ MINIMAL COST = INCREASED ROI \*

NO DAMAGE = MAINTAINED REPUTATION

- Basic certification and Licensing for up to 3 operators
  - Basic certification followed by licensing after 60 pump hours or 6 months operational experience
  - Computer based training divided into 6 modules for key subject matter
  - Comprehensive 100 question online test
  - 30 hours combined operational/mechanical training
  - Up to 6 Copies of the “Hog Notes”
  - Individualized 24 hour 365 days a year operational coaching via a personal coach assigned to each licensed operator
- Annual onsite vehicle inspection/certification of your Stripe Hog
  - 80+ point inspection of the Stripe Hog equipment
  - Certification of the Stripe Hog unit gives you additional warranty clout
  - Extended warranty offered at a discount while parts agreement in effect
  - Recommend upgrades to increase productivity or reduce operational cost
- Semi-annual operations review of production rates and surface impact on removals
  - Monitor daily reports for a total of 20 pump hours
  - Provide relation of operators production rates to standard production rates
  - Collect at least 3 pictures of completed work to evaluate surface impact
- Semi-annual spare parts review
  - We look into the consumption of each individual part compared to industry average
  - If we find excessive use of any individual part, we will coach your operator towards a better result

## Continuing education online

- Access to Hog Blog which encourages competition among operators
  - Daily success stories
  - A daily operational tip by email or text to keep your operators sharp
  - “How to” videos for maintenance and operational procedures
  - Complete access to online training portal. Once an operator obtains one year experience and a minimum of 200 operating hours, he is eligible for the “train the trainer” program. This will enable him/her access to the online training/testing tools to license additional operators. This can be critical in dealing with turnover and depth in your workforce.
- 24 Hour / 365 days a year technical/operational support just a phone call away
